Printed Ladies Fabric Designs Inspired by Colorful Mountains

Dr. Eman Salah Hamed Mohamed

Lecturer, Department of Textile Printing, Dyeing and Finishing, Higher Institute of Applied Arts - Fifth Settlement, eman_s22007@yahoo.com

Abstract:

The design of printed women's fabrics is one of the designs that need permanent development to keep pace with the ongoing global fashion trends and the requirements of the modern era. and items.

It differs according to the tastes and features that distinguish each stage from the other. The university stage for girls is considered a prominent station in their life, overwhelmed by a glowing mass of energy, activity and maturity, a new life full of vitality, love of life, obsession with beauty and fashion, and new ideas. The current research is concerned with this stage, studying it, and drawing inspiration from the elements Distinct natural and full of energy and vitality, as nature has always been the source and inspiration for philosophers and artists throughout the ages, and among them they set the laws and initial and basic principles on which the artwork is based, such as colored mountains, which are proportional in terms of colors and lines, and with girls at this stage where the research deals with a study of the existing colored mountains Inside and outside the Arab Republic of Egypt in terms of its distinctive artistic features (lines - colors - formations) and creating design ideas for girls' fabrics at the university stage, and presenting employment ideas for innovative designs to clarify the design idea.
